CANADIAN PACIFIC RAILWAY COMPANY

Information for the Royal Commission on Transportation in Ontario.

QUESTION -

The time it takes from the moment goods leave the consignor's warehouse until they arrive at the warehouse of the consignee - the actual time of receipt and delivery of the goods. I would like to check the time that elapses from the time when the train reaches the City of Toronto, the goods remain on your freight cars and are taken to some point for delivery, and the time it is going to take to actually reach the point of destination.

REPLY -

Typical examples of the service above referred to and as recorded in the records of this Railway are as follows -

Example No.	Shipment From	Weight of shipment.	Date shipped	Time received from shipper.	SERVICE		AT		TORONTO		Delivery shipment to Consignee	
					Train Arrival		Placement Freight Car At Railway		Delivery shipment to Cartage Vehicle		Delivery shipment to Consignee	
					Time	Date	Time	Date	Time	Date	Time	Date
